COVID-19

Rising Stronger - Preparing for the lifting of restrictions on schools

These are unprecedented times. Following the announcement by the Prime Minister, it should be noted that schools should only return if the five tests are being met and the transmission rate has reduced.

WHSS will be working closely and updating this plan as guidance is worked upon and as part of ongoing consultations where key stakeholder groups are helping to shape the wider reopening strategy. We anticipate that, over the coming days, clearer instructions and expectations will be made available.

Reopening schools will be far more complex and challenging than closure. We anticipate a very busy period approaching as we begin to think about our response and Recovery Curriculum.

We recognise that there remains some anxiety over a quick increase in numbers in the very near future, and we will continue to risk assess which children it is safe to have back and have control over who comes back and when in an attempt to ensure appropriate measures and assurances are in place to provide staff, children and families confidence that they are safe.

Rt Hon Gavin Williamson, Secretary of State for Education stated the return to schools would be in a 'phased manner', it would depend on scientific advice and schools would get 'as much notice as possible'. On the plus side, there was no mention of special schools working towards 50% attendance, which removes one potential pressure. Special schools do not have to take back children from specific year groups first but would be free to do this if they have identified specific year groups as having particular vulnerabilities such as imminent transitions out of school.

The term 'reopening' is being used widely in the media. The fact is that our school has remained open for our most vulnerable children and children of keyworkers. Gavin Williamson's announcement was more or less as we had expected.

This will be a fine balancing job that leaders will have to continue to do - increasing numbers of children attending whilst shielding vulnerable staff, maintaining physical distancing as much as possible and ensuring staff wellbeing.

The key thing we will note is that Government is holding the line that PPE is NOT routinely needed in schools. However, we will consider specific situations in which it may either reduce direct risks from specific procedures and/or where it enables staff to feel sufficiently confident to return to work.

Finally, there is new guidance for parents and carers about returning to school. There will be no fines if parents continue to keep children at home.

This document will help us start thinking about what we may need to consider in the future. It will be crucial to follow up-to-date information given by Public Health England and the Government, as we know the situation is a rapidly changing one.

This is not an exhaustive list. We are already considering these and other aspects.

20200504 Education
Roundtable Reopening

Education Roundtable have also produced a think piece that may be useful.

NB: The school refers to 'physical distancing' rather than using the terminology 'physical distancing'.

The information is correct as of 25th August 2020.

Questions for the DfE and Public Health

- 1) What are the conditions that will be required to be met to ensure that early years settings and schools can open safely?
- 2) What will be in place to give children, parents, carers, staff and the community confidence that the restrictions lifted and those in place will keep people safe?
- 3) Will the guidance to education and childcare settings about social distancing and vulnerable people be updated to reflect the increased issues as pupil numbers start to rise?
- 4) Will there be PPE available where it is deemed necessary? How will the supply chain be ensured?
- 5) What financial support will there be to support education and childcare settings dependent on fees income during the phased return?
- 6) How will plans be communicated to ensure clear understanding of arrangements and to protect against misinformation?
- 7) What flexibility will there be for settings and schools without sufficient staff (both longer term for those shielding and short term response to staff becoming ill or needing to self-isolate)?
- 8) What are the expectations for attendance given many parents and carers will be anxious about children returning to childcare and education?
- 9) When will there be clear information about the role and remit of Ofsted inspections?
- 10) What support and guidance will there be for settings and schools in responding to the need for flexible learning arrangements?
- 11) What support and guidance will there be to address the gaps that will have inevitably widened especially for disadvantaged and SEN children?
